[^] Employment levels by industry are revised in December to take into account annual updates in the industry classification of firms. The total employee levels in this table are based on data after the annual revision in industry classification.

^{^^} Annual change in total number of employees is the difference in the employment level at the end of the reference period compared with the end of the preceding period. This is calculated using pre revised employment level at the end of the reference period less revised employment level at the end of the preceding period e.g. pre revised employment level in December 2021 less revised employment level in December 2020.

Notes:

- Data is based on SSIC 2020. Data found in previous editions of the Singapore Cultural Statistics publication are based on SSIC 2015.
- Data has been rounded to the nearest hundred and may not add up to the total due to rounding.
- The value of “-” indicates nil or negligible.
